

## Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

**LION COFFEE**, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)

**SOLD BY GROCERS EVERYWHERE**

### BREMEN GOES IN DOCK.

Hull of German Cruiser to Be Repaired and Painted.

The German cruiser Bremen, which has been at the shipyard for several weeks undergoing an overhauling, will be floated into dry dock No. 2, at the shipyard this morning, for the purpose of having her hull repaired, cleaned and painted.

This will be the first time the Bremen has ever been docked in America. The Bremen is of the protected cruiser type and is used for a training ship, being attached to the South Atlantic training squadron of the German navy. The vessel will remain in the dock several days and will sail soon after being floated.

### Board of Aldermen Adjourned.

The meeting of the board of aldermen, scheduled for last night, was adjourned over until 3 o'clock this evening, out of respect to the memory of City Clerk Cooke's father-in-law, Mr. J. M. Thrasher, whose funeral took place Monday.

## Hampton News and Advertisements

### FIREMAN DAVIS HURT

Thrown From Hose Cart While Responding to Alarm.

HE WAS SERIOUSLY INJURED

Bit Broke and Horse Ran Away With Hose Wagon, Striking Telegraph Pole and Plunging Through Fence—Pole of Hose Wagon Broken.

The hose wagon of the Phoebus fire department was in a serious accident last evening when responding to an alarm of fire, due to the explosion of a gasoline stove at the residence of Mr. George Lancer, chief of the fire department. Little damage was done by the blaze.

Driver Thomas M. Jones was in charge of the hose wagon. As it turned into Chesapeake avenue the bit of the horse broke and the horse became unmanageable. He ran into a telegraph pole and then dashed through a board fence, breaking the pole of the hose cart.

Driver Thomas M. Jones was in charge of the hose cart. He was thrown violently to the ground and was badly bruised.

Fireman R. L. Davis, who was riding on the hose cart to the fire, was also thrown to the ground and sustained serious injuries. When picked up he was unconscious. He was taken to his home and Dr. Vanderslice was called in. The injured man had several hemorrhages and his wrists and ankles were sprained. Unless he has sustained internal injuries, Dr. Vanderslice believes he will recover without difficulty.

Mr. Davis is, in point of service, the oldest member of the Phoebus fire department and has a host of friends who will regret to hear of his unfortunate accident.

### TEST A SUCCESS.

But the Breaking of the Hawser Caused Much Annoyance.

The United States battleship Illinois and the cutter Marcellus, which have been out at sea testing the "cable system" of coaling while at sea, returned to Old Point yesterday. The Marcellus was laden with coal and it was transferred to the Illinois while the fighter was at full speed at sea.

According to Mr. Spencer Miller, who made the test for the government, the trip was a perfect success in all save one respect. The hawser used was too small and broke several times, thereby causing the ship considerable annoyance. When a larger cable is used Mr. Miller says the system will prove a great convenience and innovation in the navy.

The battleship Texas sailed yesterday for Newport.

### SEABOARD AIR LINE AGENTS.

Annual Convention of the Freight and Passenger Men at Old Point.

The passenger and freight agents of the Seaboard Air Line, comprising a company of about 100 trained railroad men, met at Old Point yesterday. The agents are gathered together so that they may become acquainted with each other and discuss plans that will prove of interest to themselves and the Seaboard Air Line.

Mr. C. T. Ryan, the general passenger agent, and Mr. Charles Capp, the general freight agent of the Seaboard Air Line, are present at the meeting and are seeing to it that every agent is given a good time.

The convention will be in session again today and will adjourn this afternoon.

### REV. C. M. WALKLEY TO SPEAK.

Fort Monroe Chaplain to Address Phoebus Graded School Pupils.

Rev. Charles Walkley, chaplain at Fort Monroe, has accepted the invitation to deliver the address before the graduating class of the Phoebus Graded Schools on the occasion of the commencement exercises, Friday evening, June 1.

Prof. George W. Gay, the principal, is busy at work arranging the program. It is expected that the exercises will be held in the Chesapeake Methodist church. There are eight candidates for certificates of graduation.

### Sheriff Phillips Improving.

News from York county last night was to the effect that Capt. Thomas Phillips, who was injured by being "rammed" under his horse was much improved. It is feared, however, that Capt. Phillips' injured arm will be about three-quarters of an inch shorter when it heals.

### In Business Session.

The athletic association of the Young Men's Christian Association will hold an important business session tonight at 9 o'clock in the auditorium of the association.

### Death at the Home.

J. Robinson, who served with Company A, of the Pennsylvania Infantry, died in the National Soldiers' Home hospital yesterday, aged 69 years.

### ANCIENT SIGNALING.

The Method Invented by the Grecian General Aeneas.

The ancient Greeks and Romans practiced telegraphy with the help of pots filled with straw and twigs saturated in oil, which, being placed in rows, expressed certain letters according to the order in which they were lighted. But the only one of their contrivances that merits a detailed description was that invented by a Grecian general named Aeneas, who flourished in the time of Aristotle, intended for communication between the generals of an army.

It consisted of two exactly similar earthen vessels filled with water, each provided with a cork that would discharge an equal quantity of water in a given time, so that the whole or any part of the contents would escape in precisely the same period from both vessels.

On the surface of each floated a piece of cork supporting an upright marked into divisions, each division having a certain sentence inscribed upon it. One of the vessels was placed at each station, and when either party desired to communicate he lighted a torch, which he held aloft until the others did the same, as a sign that he was all attention.

On the sender of the message lowering or extinguishing his torch each party immediately opened the cork of his vessel and so left it until the sender relighted his torch, when it was at once closed.

The receiver then read the sentence on the division of the upright that was level with the mouth of the vessel and which, if everything had been executed with exactness, corresponded with that of the sender and conveyed the desired information.—Spare Moments.

### Children's Answers.

"Children's Answers" is the title of an English book. Here is one of its quotations:

"What is a miracle?"

"Please, sir, it's a thing that happens in America."

And here is another:

A Scotch dominie, after telling his scholars the story of Ananias and Sapphira, asked them, "Why does not God strike everybody dead that tells a lie?" After a long silence one little fellow exclaimed, "Because there wouldn't be nobody left."

### Unanimous.

It is said that Gen. Sherman Bell, present yof Colorado, has been offered a generalship in the Venezuelan army. We believe that we represent the unanimous voice of the American people in urging him to accept the offer.—Columbia (S. C.) State.
